

## New Aviation Partnership in Italy

On 30 December 2017, **ALISPORT Srl** reached an agreement with **SEA-AVIO SA** and **AEROTEC INNOVATION Srl**, creating a new Aviation group in Italy, active in the engineering, production and information of innovative aircrafts and its components.

With this partnership a new manufacturing capacity is created and 4 models for light sport aviation are offered equipped with thermal and electric propulsion unit.

**AEROTEC INNOVATION** brings its 2 top models, RISEN and SIREN, new carbon light aircraft of the latest generation, characterized by high efficiency qualifications and aeronautical development of excellence, already winners of the speed world record in 2015 and other aeronautical achievement like never before, with several international awards and recognition. **ALISPORT**, with the recent development and evolution of its historic SILENT self-launching motorglider, brings its expertise in the construction of composite material and electric propulsion in addition to the experience in the production of propellers, **IDROVARIO** line, already appreciated and sold since many years all over the world. The newborn group will benefit from the synergies arising from the co-production of their aircrafts, converging each single production capacity.

**SEA-AVIO SA** is the holding operating company founded by Ing. Alberto Porto to independently support the development of its aircraft.

**AEROTEC INNOVATION Srl** is owner of the intellectual property of the models RISEN and SIREN aircraft and will be in charge of marketing of its models.

**ALISPORT Srl** is an historical company for almost 25 years active in the production and development of the SILENT self-launchers with autonomous take-off.

From 01 January 2018 ing. Alberto Porto will be Sole Director of **ALISPORT Srl**.

Ing. **Cesare Beretta**, previous Alisport Director, commented on the agreement:

*"I am happy that **ALISPORT**, a company founded by my father since 1994, finds development and continuity in the newly formed group. SILENT together with RISEN AND SIREN, great quality aircraft, not only represent a sure reference to the highest quality mission of the new group, but will also enlarge ALISPORT market offer, while benefiting in the unified production capacity for a better efficiency and economic return of the group "*.

Ing. **Alberto Porto**, formerly Sole Director of **AEROTEC INNOVATION Srl** and **SEA AVIO SA** commented on the agreement just reached:

*"The agreement is the natural development of our 2 companies, both of which are involved in the engineering and manufacture of excellent aircraft. Together with ALISPORT we will certainly be able to improve market supply and manufacturing efficiency, maximizing quality and efficiency. The new group endeavor is to bring back to Italy its ancient Aviation excellence now lost since more than 50 years "*.
